B VOCABULARY IN CONTEXT

Choose words from the box to complete the paragraph.

line graph	Venn diagram	bar graph
pie chart	map	flowchart

Example: If you wanted to show the percent of electricity made from different fuels, you could use a pie chart.

There are many ways to present data or information. If you need to show how two things are alike and different, you could use a (1) _____. If you need to show the order of a process, you could use a (2) _____. Sometimes you must show how information changes over time. Suppose you must show how a child's height changes from year to year. For this you could use a (3) _____ or a (4) _____. To show information about a city, you could use a (5) _____.
